

2. What is 'Teamviewer' available and where is it available?

'Teamviewer' is software that is available on internet for free and provides good communication medium by connecting two PCs remotely.

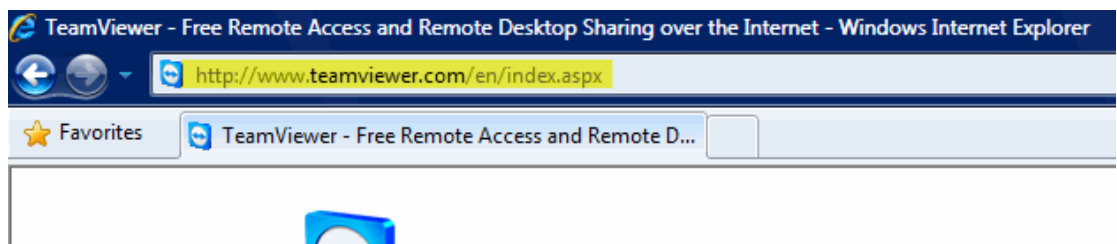

Here in INFLIBNET Centre, we prefer 'Teamviewer' to connect your system having query if the internet is available at the Client End. This helps us knowing the query well in deep and to solve at the same time.

To Install 'Teamviewer':

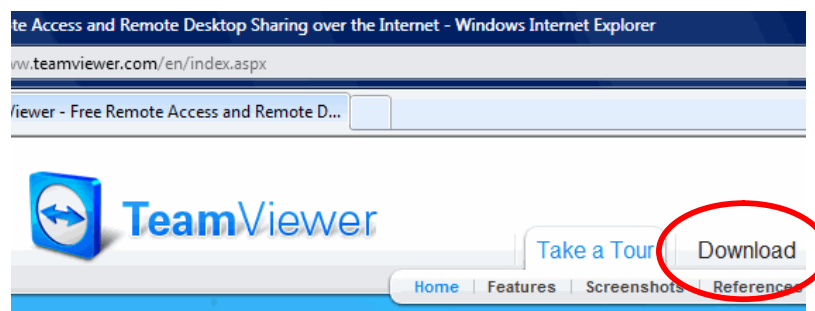

- 1) Open your Internet Browser

- 2) Type 'www.teamviewer.com' in the address bar

- 3) Click on 'Download' option

4) Click on 'Download V0.0.0000'

TeamViewer full version - Windows

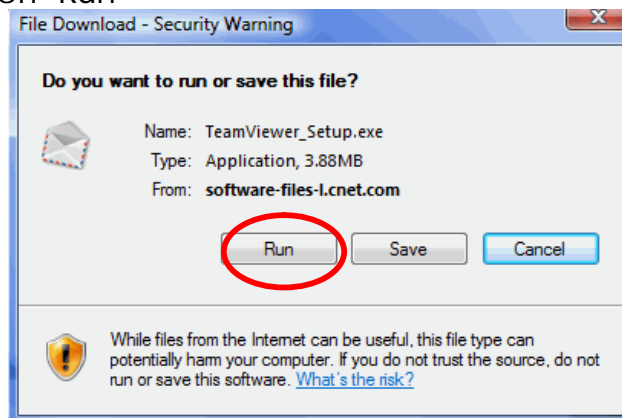

All-In-One: TeamViewer full ver

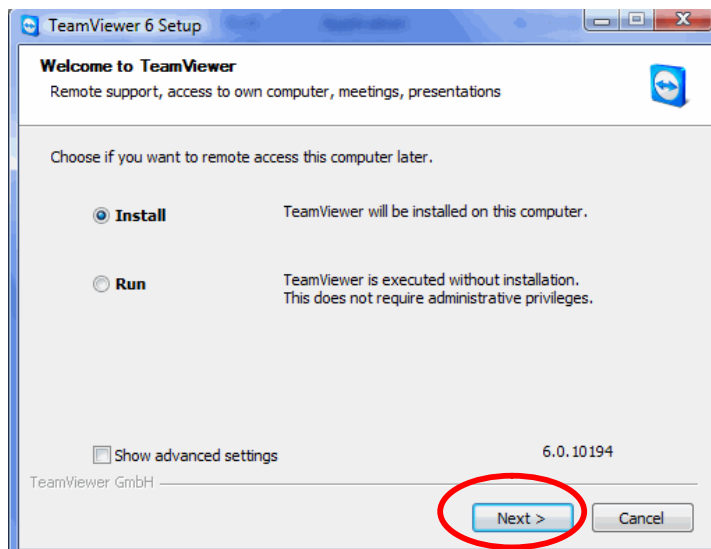

This recommended download can establish c

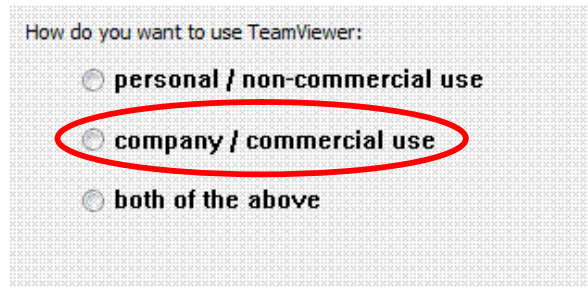

5) Click on 'Run'

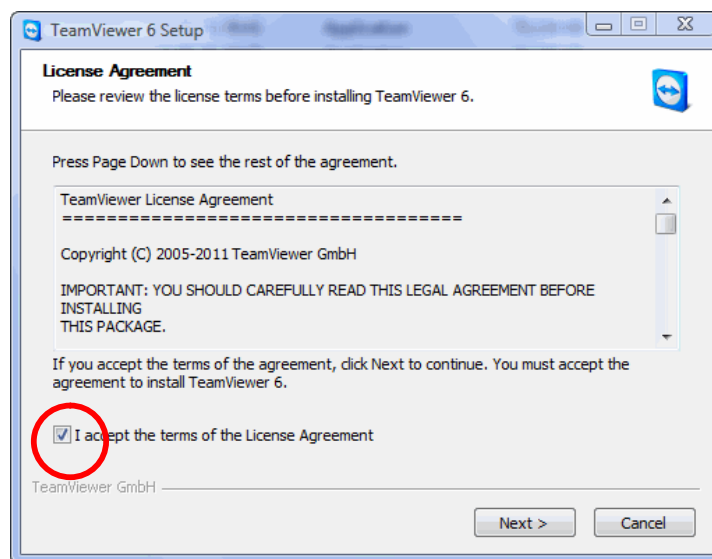

6) Click Next

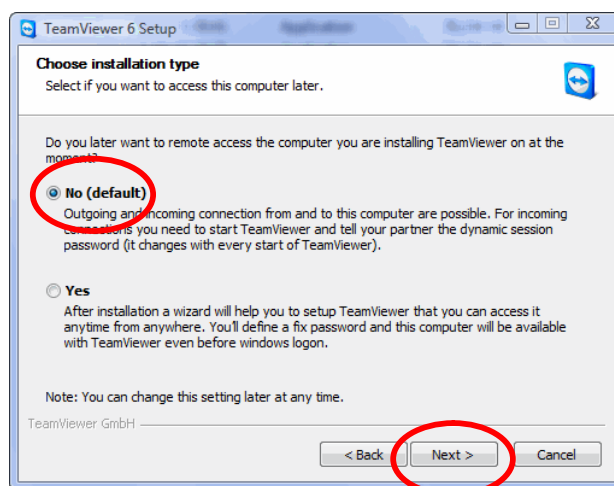

7) Select 'Commercial / Business Use'

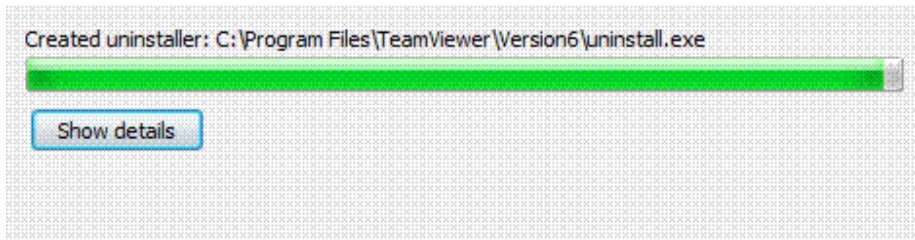

8) Click on 'I agree'

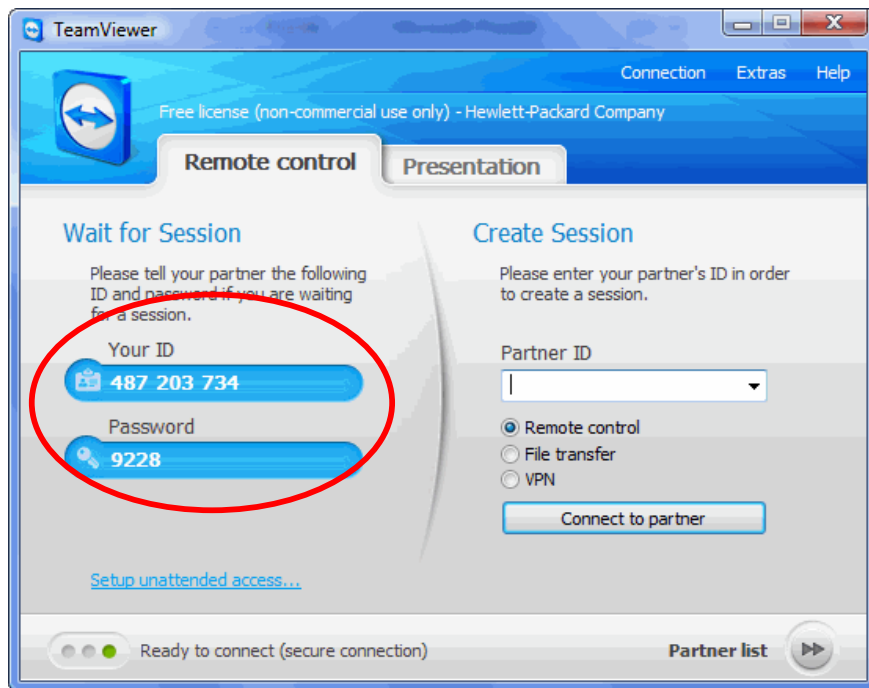

9) Select 'No' and Click 'Next'

10) Wait for the Installation to be completed

11) Send us this Teamviewer ID and Password

N.B. "The INFLIBNET Centre" do not take any Franchisee or Support for Teamviewer Software. It is purely for effective communication purpose.
